Behind came Bud. rolling jovially in his saddle, and as the dogs rushed out after his pardner he twirled his loop once and laid it best, and Bud was out of practise. The audden blow struck Brindle to the ground and the loop came away un-filled. The Texan laughed, shifting in his saddle.

"Come again!" commented Bud. leaning sidewise as he coiled his rope, and as the womenfolk and idlers came rushing to see what had happened he turned Copper Bottom in his tracks and came back like a streak of light.

'Look out, you ugly man's dog!" he shouted, whirling his rope as he rode; and then, amid a chorus of indignant protests, he chased the yelping Brindle down the lane and through a hole in the fence. Then, with no harm done. he rode back up the street, smiling amiably and looking for more dogs to

Now that sure does me good," he confided to Phil, as they rode down between cottonwoods and struck into the muddy creek. "No sense in it, but it gets something out of my system that has kept me from feeling glad. Bid you see me bowing to the ladies? Some class to that how-no? You want to look out-I got my eye on that gul, and I'm sure a hard one to head. Only thing is, I wouldn't like the old man for a father-in-law the way matters stand between us now."

CHAPTER XI.

The place at Fortuna, ordinarily so peaceful and sleepy, was alive with hurrylog men when Rud and Phil reached town. Over at the station a special engine was wheezing and blowing after its heavy run and, from the train of commandeered ore cars behind, a swarm of soldiers were leaping to the ground. On the porch of the hotel Don Juan de Dies Brachamonte was making violent signals with his hands, and as they rode up he hurried out to meet them.

"My gracious, boys," he cried, "it's a good thing you came into town! Herpardo Bravo has come over the mounas and he's marching to take Moc-

"Why, that doesn't make any difference to us!" answered Phil. "Moctezuma is eighty miles from here and look at all the soldiers. How many men has Beroardo got?"

Agua Negra." They tied their horses to the rack the heavy metal ore cars, each a rollactive Yaquis were helping out their women and pet dogs, while the rest, talking and laughing in high spirits, were strung out along the track in a perfunctory line.

If the few officers in command had ever attempted to teach them military discipline, the result was not apparent in the line they formed; but any man who looked at their swarthy faces, the hawklike profiles, and deep act, steady eyes, would know that they were fighters.
